BENJAMIN JONES

- What's been done: QR code management, are better, sprint 3 planning, sprint 2 presentation
- What'll be done: Maybe saving QR codes, it's tough
- What's been hard: Saving QR codes!

BRANDON LUCAS

- What's been done: Begin working on search application by name
- What'll be done: get working on search app by name working
- What's been hard: firebase is not functioning/returning values as expected

MYLES MCLEROY

- What's been done:
 - Sprint 2 presentation
 - Sprint 3 planning
- What'll be done:
- What's been hard:

MARIE NEUBRANDER

- What's been done: Sprint 3 planning, sprint 2 wrap-up, adding error-checking in application submission, began adding modal for viewing submitted/denied applications
- What'll be done: Finish modal for viewing submitted/denied applications, adding ability to resubmit a denied application
- What's been hard: making 'small' feature decisions that would impact the TES workflow.

2020/11/20

BENJAMIN JONES

- What's been done: volunteer export to CSV
- What'll be done: volunteer export to PDF
- What's been hard: volunteer export to PDF

BRANDON LUCAS

- What's been done: modularized firebase function call for search
- What'll be done: finish search functionality by name
- What's been hard: firebase unexpected results

MYLES MCLEROY

- What's been done:
 - Added UIImagePickerController to select a profile photo
- What'll be done:
 - Upload image to firebase and display on profile

- What's been hard:

MARIE NEUBRANDER

- What's been done: No concrete progress in the last three days.
- What'll be done: Finish modal for viewing submitted/denied applications, adding ability to resubmit a denied application
- What's been hard:

2020/11/25

BENJAMIN JONES

- What's been done:
- What'll be done: volunteer export to PDF
- What's been hard: volunteer export to PDF

BRANDON LUCAS

- What's been done: finished firebase search by name
- What'll be done: finish website, add test cases, work on search clock in/out by name, age, ethnicity, sex
- What's been hard: understanding asynchronous code Javascript

MYLES MCLEROY

- What's been done:
 - Profile image uploads to firebase
 - Profile image displays on profile page
- What'll be done:
 - Fix formatting for profile image
- What's been hard:
 - Thanksgiving

MARIE NEUBRANDER

- What's been done:
 - Modal View for volunteer side applications
- What'll be done:
 - Finish update application abilities
 - Fix approve clock in/out page
 - Search for clock records
- What's been hard:
 - Understanding front-end stuff and getting the modal to be more aesthetically pleasing

2020/12/01

BENJAMIN JONES

- What's been done: some improvements to searching on multiple criteria, fix QR code stretch
- What'll be done: export to PDF, aggregate hours for volunteer
- What's been hard: Dr. Borie's assignments, export to PDF

BRANDON LUCAS

- What's been done: code cleanup and formatting
- What'll be done: finish website, add test cases, work on search clock in/out by name, age, ethnicity, sex
- What's been hard: formatting with flexbox

MYLES MCLEROY

- What's been done:
 - Fixed formatting for profile image
- What'll be done:
 - Sprint 3 presentation, code cleanup
- What's been hard:
 - Dr. Borie, Dr. Anderson, drowning in tests and assignments

MARIE NEUBRANDER

- What's been done:
 - Finished all of the volunteer application stuff (except for profile photo)
 - Fixed approve clock in/clock out page
 - Added ability for manager to create a clock in/out record
- What'll be done:
 - Add search for clock in/out records by date/time/ethnicity/gender/name
- What's been hard:
 - Dealing with firestore querying abilities

2020/12/02

BENJAMIN JONES

- What's been done: Aggregate hours in volunteer, superuser views, added time elapsed to clock in query
- What'll be done: export to csv for manager
- What's been hard:

BRANDON LUCAS

- What's been done: Added manager manual clock out screen, fixing formatting for manager screens
- What'll be done: Finishing formatting, complete tests, finish website
- What's been hard: Getting test cases to work with Firebase

MYLES MCLEROY

- What's been done:
 - Some code cleanup
 - Added profile image to application modal view
 - Removed profile image from users who are not yet approved
 - Fixed [Object object] error
- What'll be done:
 - Sprint 3 presentation
- What's been hard:
 - As always: finding time

MARIE NEUBRANDER

- What's been done:
 - Added search ability for managers to find clock in records by date/ethnicity/sex/name/userid
 - Cleaned up some of the formatting in modals
 - Began index creation in firestore for search by date
- What'll be done:
 - Finish index creation in search by date
 - Set default dates in date picker
 - Look for use effect errors source
 - Code cleanup!
 - Add loading screen to profile page
- What's been hard:
 - Firestore requires indexes to be made for any possible combination of searches that can be made with dates
